

ENDS AND TRENDS WITH KIM AND KAREN

Karen's Trend Alert: Women aren't the only ones with fashion trends this spring. Men also have some styles to look out for. Let's take a peek:

Floral Prints: This is for the adventurous fashionisto! A floral print shirt under a vest or jacket – just barely poking through – can make for a very fashion-forward look. For that brave guy, the floral print adds that little oomph to your overall outfit. If you're not ready for the full floral effect, try getting the same look with a floral print tie instead.

Polka Dots: One of the most fun prints around, the polka dot screams spring to me! For those who can't see themselves wearing polka dot pants, shorts or shirts, give it a go with a polka dot print tie. Incorporating the print, even a simple way, still shows you've got some fashion flair.

Neon Shoes: If you haven't already noticed, neon accents have made their way onto athletic shoes. This trend is a hot one – and I love it! Bright greens, yellows, blues,

oranges, and even pinks are the rage right now, especially in street fashion. Don't be afraid to shock everyone with an electric pair of shoes!

Next time, I'll have more on men's spring fashion trends. Until then, happy shopping!
